4. First aid measures:

- 4.1 Description of first aid measures
- Following inhalation: Pure wax resp. wax not containing any kind of oil is showing almost no vapour pressure when fluid, for that an inhalative absorption of any toxicologically concerned component can be excluded.
- Following skin contact: Contact with molten/fluid product may lead to burns. Cool down with cold water immediately, if necessary treat wound in a sterile manner, seek for medical advice. Any absorption of paraffin components by means of skin while the wax is solid cannot be expected.
- Following eye contact: Rinse thoroughly with water, if necessary seek medical advice (when wax is hot/fluid)
- Following ingestion: Rinse mouth – no further measures necessary. Waxes can be applied as components of pharmaceuticals or food for this reason the question of absorption in the digestive tract after accidental ingestion is irrelevant.
- 4.2 Most important symptoms and effects, both acute and delayed
- Symptoms: none
- Effects: none
- 4.3 Indication of any immediate medical attention and special treatment needed
- Notes for the doctor: none
- Special treatment: none

5. Firefighting measures:

- 5.1 Extinguishing media
- Suitable: Foam, dry powder, carbon dioxide, water mist spray
- Unsuitable: Water jet
- 5.2 Special hazards arising from the substance or mixture: In case of fire fumes are possible: carbon monoxide (CO).
- 5.3 Advice for fire-fighters: Respiratory protection independent of ambient environment – in case of fumes.
- 5.4 Additional indication:
- Fire class: B: Liquid substances or substances becoming liquid.

6. Accidental release measures:

- 6.1 Personal precautions, protective equipment and emergency procedures
- For non-emergency personnel
- Protective equipment:
- Emergency procedures: Avoid contact with skin, eyes and clothes when substance is hot and fluid.
- For emergency responders
- Personal protective equipment: see section 5.3
- Avoid contact with skin, eyes and clothes when substance is hot and fluid.
- 6.2 Environmental precautions: No special precautions need to be taken.
- 6.3 Methods and material for containment and cleaning up: Let material solidify – clean up mechanically.
- 6.4 Reference to other sections: More information on disposal see section 13.
